# LaCie DVD±RW Internal Drive with LightScribe

E-IDE, with Double Layer, 16x

## Lightscribe Direct to Disc Labeling

### NEW LIGHTSCRIBE DISC LABELING

LightScribe is an innovative new technology that allows you to burn silkscreen-quality labels directly onto CDs/DVDs*** with a laser instead of a printer. LightScribe uses a combination of your CD or DVD drive, specially coated discs, and enhanced disc-burning software to produce precise, professional labels. The result is an impressive iridescent image composed of art, text, or photos of your own creation.

### DUAL DVD±RW IN ONE DRIVE

This universal drive delivers four DVD formats in a single device. By combining DVD+RW and DVD-RW formats, the LaCie DVD±RW Internal Drive delivers greater creative versatility by eliminating the need to choose one format over another. This dual-purpose drive is also capable of writing to CD and DVD formats, which are compatible with nearly all existing DVD-Video players.

### RECORD CUSTOM DVDs IN MINUTES

Offering the fastest DVD record speed on the market the LaCie DVD±RW Internal Drive features a 16x record speed. Import video and audio footage from your DV camcorder and burn projects onto DVD or CD-Video discs. Completed DVDs can then be played back on virtually any DVD player.

### STORE MP3s, PHOTOS & VIDEO

Back up valuable data, share photos, and archive MP3 libraries and MPEG-2 DVD video all on one disc. With the ability to store digital data on CD or DVD media, this drive allows you to burn up to 8.5GB* or more than two hours of theater-quality video on large-capacity DVD discs. The included Roxio DVD Builder authoring software will help you to easily record professional-quality, personalized DVDs.

- Double layer recording technology
- Create custom labels for your discs
- Expansive 8.5GB digital storage capacity*
- Multi-format DVD rewritable drive with software

## FEATURES
- DVD±RW and CD-RW drives in one
- LightScribe Direct to Disc Labeling***
